9.1.7.3.6.4.0.2. 8. Solve a problem using assembly language using "emu8086" Software: Do not use advanced level syntax I need to solve a .NET problem and I am using Emu8086 - my first op I'm not using assembler (I've since used C/C++/Delphi) I want to be able to use assembly language in a C/C++ program. I want to get an "Error!" message from the compiler when I try to execute a command. I know I'm using "emu8086" because I saw someone use Emu8086 in their software I created for
