What's New in the Tetris?

Tetris comes from Japan, and it was released for the first time in 1984. Since then the game has been playing a major role on mobile, PC and console platforms. The gameplay is simple. It doesn't require any special skills, the object is to clear the blocks on the screen through falling them one by one. Tetris Resources: . (PHONE): This line consists of a phone number with a + sign at the end. You can use this line to call the person specified. IMPORTANT! If you use the links in this post to view or download Tetris game you have to download the game from Google Play Store/App Store. I don't have any affiliation to any of the developers/publishers of Tetris. How to Play: To make the Tetris blocks you need to drag them out of the plane and drop them on the ground. You can only move them when you release the "p" key. When you release the "p" key, the cursor will turn yellow and the blocks will start moving down from the top. When you touch the block, you will crash it in the ground. It's not that difficult. Try to play the game without the "P" key. You will probably find the game will be a bit easier. The basic rules of the game can be found here. Tetris Tips: Become familiar with the key. Once you have gotten used to playing the game, you will be able to move faster and clear more blocks at once. If you find the blocks getting out of control (crossing) your blocks you can rotate the blocks clockwise or anticlockwise. Use different colors. You can use different colors to make things easier for yourself. When you release the block it will turn blue and start crashing downwards. It can help you see the place where the block is crashing and you can avoid crashing into it. Practice is very important. It will help you to become faster. You can find a lot of tips and a strategy guide here. Tetris Challenges: Remove all the blocks in under two minutes. Challenge yourself by trying to clear all the blocks in less than two minutes. The one who clears all the blocks and makes it in the shortest time will be the winner. If you clear all the blocks before the timer reaches zero, you will
