What's New in the WindowsPod?

WindowsPod is an Apple iPod-inspired software player for Windows XP, Vista, and Windows 7. It reads most audio files and playlists on your hard drive and allows you to pause, play, fast-forward or reverse, as well as jump to a certain track or a number of tracks. WindowsPod also has an organizer mode for setting up playlists and ratings as well as integration with Windows Media Player. WindowsPod is a freeware player. Advertisement WindowsPod 3.0 Review WindowsPod is an Apple iPod-inspired software player for Windows XP, Vista, and Windows 7. It reads most audio files and playlists on your hard drive and allows you to pause, play, fast-forward or reverse, as well as jump to a certain track or a number of tracks. WindowsPod also has an organizer mode for setting up playlists and ratings as well as integration with Windows Media Player. WindowsPod is

a freeware player. WindowsPod Overview WindowsPod is an Apple iPod-inspired software player for Windows XP, Vista, and Windows 7. It reads most audio files and playlists on your hard drive and allows you to pause, play, fast-forward or reverse, as well as jump to a certain track or a number of tracks. WindowsPod also has an organizer mode for setting up playlists and ratings as well as integration with Windows Media Player. WindowsPod is a freeware player. Installation Setup WindowsPod, like most audio players on Windows, doesn't require a lot of setup. After installing the software, you must add a couple of folders to your default media location. Then, the basic playback controls are displayed on the upper-left corner of the screen. In the organizer window, playlists, ratings, and play counts can be created from the upper-right area. WindowsPod isn't limited to playing music, as it can also play video. When it comes to video media, WindowsPod supports.wmv,.mp4, and.avi files. Your library can be viewed in list form, by artist, album, title, and genre. In the "Setup" window, you can customize the toolbar settings, from an iPod-style player or a traditional windowed interface. You can also read the manual or browse help. Even though WindowsPod is a freeware, you can also pay to get a version with higher quality visuals. Connectivity WindowsPod has a

System Requirements:

CPU: Dual-core Intel or AMD at 2.2 GHz or higher RAM: 1 GB RAM or higher OS: Windows XP/Vista/7/8 GPU: DirectX compatible with any pixel shader version Screen Resolution: 1024x768 HDD: 8 GB space for installation Network: Broadband internet connection Language: English It seems to be quiet funny when I have lots of people already died to play my game, I believe that they thought, that the game is about killing people, but in
