**Year Sponsor Sponsor Just a little bit about who we are... A relatively small group of St. Paul counselors who serve students and their families in the Plymouth-Canton School Districts, we do not belong to the Parentlink organization. Many of us have been working in St. Paul as counselors for a long time; others have been on staff for 5 to 25 years. We vary in age, personalities, and parent/child relationships but we all have strong opinions and opinions about building strong parent/child relationships in all of our programs. As an organization, we like working together, giving each other help when needed, and working from the same many-colored perspectives. We're not perfect, however; and there will be new trainees on staff around the beginning of the school year as we make several organizational changes that make it possible for many more of us to serve the schools in a very different way. We want to give them the help, questions, and forums that will make their first weeks as counselors the most efficient they can be. No matter how many telephone calls, how much face time, or the talking through of family issues, this is a wonderful opportunity to be able to provide the parents of all children in the district with in-person and online access to the very best child development specialists in the state. If you are interested in learning more about our programs, contact Kathy, Joseph, Barry, Peggy, or Tom, and let us know your questions.**
