How Do I Get the API Key? How do I get the API Key? You would like to know how to get the API Key in prestashop multi vendor marketplace,This article will answer all your questions about how to get API Key and how to use it. It's usually at the bottom of your title page, either under the sidebar or in the footer. To get the API Key: Go to the Host & Domain panel in the back-office. If you don't see the Host & Domain panel, then click "Appearance" (on the top of the bar) and look for the Host & Domain module. Then go to the Web panel, which is the third panel on the right. At the bottom of the page, you should find an "API Key" section, where your API Key should be listed. If you don't see the API Key, then you can only guess that it is not present or if it is present, then your site might be hosted on a custom domain, which also means that you need a custom domain. Also, when you click on the "Cannot retrieve the API key", you should be asked to create a new API key, which you can do in the Host & Domain panel. If you want to get a valid API key, then you need a custom domain. We can connect you to a professional prestashop hosting provider who can help you to get a custom domain name, but we do not guarantee that your key will be valid. Prestashop Multi Vendor Nulled 25l is a part of Multi-Sensory Multi-Sensory is a customizable, easy-to-use and light themes for Prestashop theme that can be used to set up a bright and professional eCommerce website for your business or organization. To learn more about the theme, we invite you to read the information on our website.Q: Why we need to instantiate an object of abstract type in c++? When we are declaring an abstract type object, an object instance should be instantiated, as given below. class Abstract{ public: void methods(); protected: int temp; }; void Abstract::methods(){ temp = 10; } We can access this method as..
